Dear Sir:

The above-identified patent application is a **continuation-in-part of assignee's co-pending U.S. Serial No. 09/271,997, entitled "Multiple Satellite Mobile Communications Method and Apparatus for Hand-Held Terminals," filed on March 18, 1999.** This is clearly stated on page 1 of the patent application.

A **supplemental** "Combined Declaration for Patent Application and Power of Attorney" for a "Continuation-in-part application" which clearly claims the benefit of the parent application and has been signed by the inventors is being concurrently (but separately) filed.

Therefore, the Office is requested to include the statement that "This application is a continuation in part of Serial No. 09/271,997, filed March 18, 1999, now pending" in the "Continuity Data as Claimed by Applicant" section of the Filing Receipt and to issue a corrected Filing receipt for the above-identified patent application.

Respectfully submitted,
MING U. CHANG ET. AL

TRANSMITTAL OF SUPPLEMENTAL CONTINUATION-IN-PART
COMBINED DECLARATION FOR PATENT APPLICATION AND
POWER OF ATTORNEY

Commissioner of Patents
Washington, D.C. 20231

Dear Sir:

The above-identified patent application is a **continuation-in-part of assignee's co-pending U.S. Serial No. 09/271,997, entitled "Multiple Satellite Mobile Communications Method and Apparatus for Hand-Held Terminals,"** filed on March 18, 1999. This is clearly stated on page 1 of the patent application.

The "Combined Declaration for Patent Application and Power of Attorney" filed earlier did not specifically claim benefit of Serial No. 09/271,997 under 35 USC §120. Therefore, a supplemental "Combined Declaration for Patent Application and Power of Attorney" signed by the inventors is enclosed herewith. This supplemental declaration is for a "Continuation-in-part application" and the inventors clearly claim the benefit of the parent application and acknowledge the duty to disclose to the United States Patent and Trademark Office all information known to the inventors to be material to the patentability as defined in Title 37, Code of Federal Regulations, 1.56 which became available between the filing date of the prior application and the national filing date of this application.

between the filing date of the prior application and the national filing date of this application.

The Office is requested to make this Supplemental Declaration of record. The Filing Receipt issued by the Office does not have any continuity data. A separate letter is being sent to OIPE requesting that this information be included and a corrected Filing receipt issued for the above-identified patent application.

Respectfully submitted,
MING U. CHANG ET. AL
